ROMANIA –  
Seed bags

*Dear Friends and  
Supporters!*

At SB Foundation we are happy and grateful that every year we receive a lot of seed bags from an association we share interests with. The bags contain seeds for cultivation of different vegetables, such as peas, tomatoes, squash, radishes, and even different kind of flowers. We, in turn, send the bags to our partners in Moldavia, North Macedonia, and Romania. They are greatly appreciated and, for many, reduce the burdensome expenses for fruit and vegetables. We have received confirmation from the recipients that the shipments have arrived.

In the photo on the left, we see some residents in Voivodeni in Romania select suitable bags.

The photos here, show how the common plot of land for the senior day care center in the village of Bogdand is cultivated. With their low pensions, they simply could not survive without the ability to grow potatoes, turnips, and vegetables.

In the village of Ciumeghiu the bags have already been distributed to poor Roma people.

Do you want to contribute funds for the aid work? Swish works very well (the number is below).

Warm greetings from SB Foundation via us on the Board, *Arne, Elisabeth, Gloria, Lena, Roger*
