ROMANIA –  
VOIVODENI

*Dear Friends and Supporters,*

During the night to January 21, a powerful storm in Voivodeni caused a large tree to fall over and destroy some of the preschool's swings, the slide, the monkey bars, and more, as well as the fence. Members of the congregation rushed out to cut down the tree and mend the fence. But in order for the local government to approve the children's use of the play equipment, an authorized company must repair it to ensure that no accidents occur. Our contact person Denes Csaba is wondering if SB Foundation could pay for the renovation, which will cost 2,000 Euro (almost SEK 23,000). – In the past, the Foundation has restored the preschool building and has had the playground reconstructed, so we feel a certain responsibility.

When SB Foundation traveled to Romania in September 2021 to visit its various projects in that country, we took photos of the children in active play on the preschool's grounds, as shown here.

Of course, we must help with the repairs, so the children can play there again. "Don't you agree," ask  
**SB Foundation** and the Board,
