March 2024
NORTH MACEDONIA

*Dear Friends and
Supporters!*

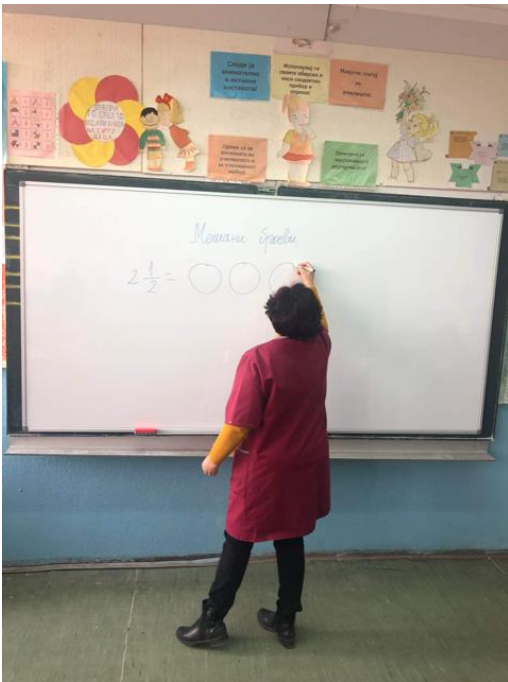

"The blackboard" in the Romani school in Bitola was so old that it was no longer possible to see what was written on it. Some time ago SB-Foundation sent funds for a modern white board.

Maria and Thomas Rosengren who lead the project, recently visited the school and was able to take some photos showing how

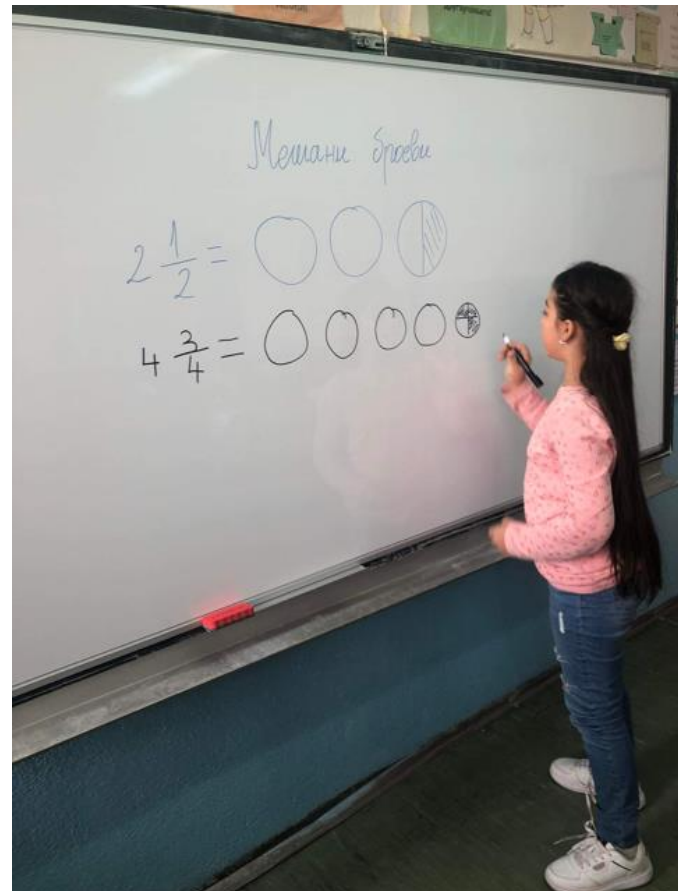

the teacher first illustrates what is meant by two and a half ($2\frac{1}{2}$) and then lets one of the students similarly illustrate four and three fourth ($4\frac{3}{4}$).

Thomas and Maria also dedicated several days at the hospital to oversee that the renovation of shower rooms and toilets was properly done. The facilities looked dreadful with mold and finishes that had worn off, and no running hot water.

Hygiene is particularly important when mothers wash their newborns.

Those who registered for SB-Foundation's trip to North Macedonia, May 27-31, will visit both the school and the hospital and will also tour the beautiful countryside and partake in the rich culture.
