ROMANIA Voivodeni
Self-help projects

*Dear Friends and
Donors,*

Do you remember the farmer in Voivodeni, Romania, who hand-milked his 29 dairy cows every day and daily donated 15 liters to refugee children? As you may recall our contact person, pastor Denes Csaba, told us that the farmer needed a new electric milk machine and a stainless-steel milk cooler. After SB Foundation's Newsletter about this reached our readers, it did not take long before several donations earmarked "to the dairy farmer" arrived at SB-Foundation, so now, as the pictures show, we have been able to fulfill the farmer's dual needs. He is very happy and grateful.

The Board of SB-Foundation has also decided to assist the Tabaran Balint family with equipment for the fabrication of fruit juice. As the picture evidence, the production of black currant juice is already under way. The juice producing owners tithe every month to the congregation, so when production increases, the aid to the congregation's welfare projects increases, too.

A warm thank you for your support of the foundation's self-help projects.

With greetings from **SB Foundation** and us on the Board *Arne, Elisabeth, Gloria, Ivar, Lena, Roger*
