ROMANIA –

VOIVODENI

Defibrillators, etc.

*Dear Friends and
Supporters,*

A while ago a fatal accident occurred in Voivodeni. It is possible that it could have been prevented if a defibrillator had been available. This resulted in an instructor being called in to Voivodeni to demonstrate how a defibrillator can help someone who has cardiac arrest and is no longer breathing. 15 individuals were taught how to use it. Our contact person Denes Csaba tells us that the 'commune' [municipality] purchased two defibrillators for Voivodeni, the capital of the commune. He simultaneously asks if SB-Foundation might be able to buy two more, one each for the nearby villages Toldal and Onuca. The Board decided to go ahead with this, and the funds have now been sent.

Two farmers have had problems with insect pests. SB-Foundation has therefore helped them buy a jointly owned machine for spraying. Here is one of the farmers with the newly purchased machine.

Warm greetings from SB Foundations via us on the Board, *Arne, Elisabeth, Gloria, Lena, Roger*
